

## **Membership Application**

The Ontario Pollution Control Equipment Association is a non-profit organization dedicated to assisting member companies in the promotion of their equipment and services to the water, wastewater and pollution control market sector of Ontario. Originally founded in 1970 under the name Ontario Sanitation Equipment Association, the OPCEA has since grown to over 170 member companies whose fields encompass a broad spectrum of equipment and services for the air and water pollution control marketplace.

### **Why your firm should become a member**

In its endeavour to promote member companies and their products, the OPCEA directly participates in and provides the following services:

- ✓ WEAO Annual Technical Symposium & OPCEA Equipment Exhibition - OPCEA membership is mandatory to all suppliers who wish to participate in this trade show and the exhibit portion of the conference is organized by a director of the OPCEA.
- ✓ OPCEA Directory and Buyers Guide - 10,000 directories are published annually and distributed in the Ontario marketplace.
- ✓ A combined OPCEA/WEAO newsletter promotes upcoming tradeshow and events - The OPCEA is listed with both the Federal and Provincial Government offices whose mandate is to promote Canadian firms in the pollution control market. Member companies are thus kept current with upcoming events and opportunities.
- ✓ An annual general meeting and periodic events sponsored by the association for the member companies.
- ✓ Website ([www.opcea.com](http://www.opcea.com)) will include your company's listing.
- ✓ For privately owned Canadian companies membership with the Canadian Federation of Independent Business (CFIB) is included.

### **Membership Fees**

OPCEA membership runs from July 1 to June 30. The annual membership fee is \$536.75 Cdn (incl. 13% HST) for members who are privately owned Canadian companies. There is also a onetime initiation fee for new members of \$395.50. Cdn (incl. 13% HST). Membership fees for companies who do not qualify for CFIB is \$310.75 (incl. 13% HST). Any company joining OPCEA after July 1, will be invoiced for a full year membership and the initiation. New members will be given a pro-rated credit on their membership renewal invoice the following July. The amount of this credit will be dependent on when they joined.

Membership fees cover the firm's listing, both alphabetically and by product in the annual directory, all newsletters, and a provision for two representatives to attend the annual meeting and dinner. Fees for advertising in the directory and for attendance at the trade exhibits are extra.

If your firm is engaged in the supply of equipment or services to the air or water pollution control market in Ontario, we urge you to give serious consideration to joining our association. Just fill in the membership information form and return it with a cheque or credit card information for the appropriate membership and initiation fees. (GST#RI28972965)
