Advertising in the Directory – Total print run: 8,500 copies.

Good directories have a long shelf-life as a reference source, so advertising in them is an excellent marketing opportunity. The OPCEA Directory will be distributed to some 8,500 key environmental professionals across Ontario, including those serving industries and municipalities. Readers include government officials, water and wastewater treatment plant operators, contractors, municipal engineers, technical support staff, industrial plant managers and engineers, and consulting engineers. Reserve an ad in this directory and your company logo will run with your free listing, at no extra charge.

BONUS Distribution: The Water Environment Association of Ontario conference and at CANECT 2017
